

## RMR:Third party intermediary(TPI) working group 5th Session

---

### **Breakout group discussion : Regulatory Options**

In this session we will be discussing regulatory options for non domestic TPIs.

A presentation will be provided and the content explained.

Please bear in mind our Code objective: *'To protect the interests of business consumers by giving them the confidence that when they use Third Party Intermediaries for energy related services, they will be honest and transparent and effectively assist them with their energy needs'*

#### **Instructions for groups:**

- Please nominate someone in the group to take notes and to provide feedback to the group on the discussion.
- Please discuss the pros and cons of the two options as directed by Ofgem's presentation.
- If you have suggestions on a '3<sup>rd</sup> 'option' please provide this and consider the pros and cons of this option.
- When reporting back to the group, please use the structure provided for each point.
- Please use to up 45 mins to discuss these points.
