In response to the consultation dated 24th July 2013 on modifications to the Gas Transporter Licence held by National Grid Gas plc (with respect to its retained distribution networks), please find attached:-

Appendix 1 - word template showing general comments against a number of the Licence Conditions

Appendix 2 - markups/ comments on Special and Standard Special Conditions (please note the formulas for 1E are missing and we have made comment on this in appendix 1)

Appendix 3 - markups/ comments on Standard Special Conditions Part A

Please note that Richard Allman from National Grid, will provide, under separate cover, feedback from both Transmission and Distribution on the Financial handbooks and models.
