

< Property Metrics > Commercial & Domestic EPCs & Home Surveys

fast : efficient : accurate

Will, I am a Home Inspector, Residential Property Surveyor, Public Buildings Energy Assessor, Domestic & Level 4 Commercial Energy Assessor.

I produce several HomeBuyers Surveys per week, all of which involve reporting on cavity walls.

I also produce reports for customers in exposed areas who have penetrating damp problems due to wet cavity fill.

I can see no reason why it requires a chartered surveyor to produce such as simple report on hard-to-treat-cavities.

I can, and do, produce similar reports as part of my HomeBuyers surveys.

Regards,
