

FAO James Veaney

I would like to give my support to the response to the above made by Richard Bird on behalf of the UK Major Ports Group (UKMPG) of which we are a member.

As commented by others we also found the consultation document to be complex and difficult to follow and as such felt unable to make a full response, even though there were matters of interest.

We would very much support a meeting, as suggested by Richard, to discuss this consultation further.

With kind regards,

Alex
