Project code:	WPDT205	Question Number	4
Question date	20th August	Answer date	21st August
Submission section question relates to	2: Project Description		
Topic	Planning Authority		
Question	Has the local council given any indications regarding the granting of Planning Permission for the proposed Wind Farm or the alternative site(s)?		
Notes on question			
Answer	<p>The council has not given an opinion on the granting of planning permission for the wind project, and it is not normal for them to do so. Basic feasibility work has been completed, which has confirmed the site is worth progressing. However, further work is required on noise and and aviation constraints before WREN can confirm whether the site can be progressed to planning submission.</p>
