Project code:	WPDT205	Question Number	21
Question date	03/10/13	Answer date	08/10/13
Submission section question relates to	Expert Panel Bilateral		
Topic	Learning		
Question	Please comment on the uncertainty surrounding the wind farm planning application.		
Notes on question			
Answer	<p>Given the concerns over tight wind farm timescales, we are progressing a number of PV options also. The timeline for these is demonstrated below alongside that of the wind farm.</p> <p>Given the initial feasibility results will be available for each in November, we have sufficient time to switch from Wind to PV if necessitated. It should be noted that the PV farm development time is one year less than wind, hence derisking this particular issue.</p>
