Project code:	NGGTGN01	Question Number	4
Question date	15 August 2013	Answer date	19 August 2013
Submission section question relates to	Figure 5		
Topic	Project Description		
Question	How has the impact of Shale gas been factored into the changing demand scenarios at both NTS and network level?		
Notes on question	-		
Answer	<p>The project team have reviewed a number of the scenarios from the National Grid 2012 Ten Year statement, the Carbon Plan and the 2013 Energy Supply Scenarios documents and considered what impact they may have on the Gas Transmission System.</p> <p>The impact of shale gas is included in the onshore gas supply forecast. For clarity, the onshore gas supply forecast includes shale gas, biogas and coal bed methane.</p>
