

Monitoring company performance – quarterly reporting

Ofgem monitors the performance of domestic suppliers in relation to debt, disconnection, prepayment meters and help for customers in vulnerable positions. Information is collected from suppliers on a quarterly and annual basis and the data received is set out in the tables that follow and published on the Ofgem website.

The published data should be read in conjunction with the accompanying guidance notes which contains definitions on the data collected. The guidance is available on the Ofgem website at the link below:

[Social Obligations Reporting Guidance Notes](#)

You may notice that a data field is left blank. This indicates that the supplier was unable to provide the required data for that specific reporting period.

For the reconnections table, suppliers will only be shown if they have disconnected customers in the relevant reporting period.
