Project code:	ENWT205	Question Number	19
Question date	17 September 2013	Answer date	19 September 2013
Submission section question relates to	Section 4: Evaluation Criteria		
Topic	Project partners and funding		
Question	Please describe the potential benefits to Kelvatek should this project achieve its aims.		
Notes on question			
Answer	<p>Kelvatek, through its role of a Project Partner, gains the opportunity to showcase its technology in a high profile Second Tier LCN Fund project and promote the learning gained from <i>eta</i>.</p> <p><i>eta</i> aims to demonstrate that distribution networks can be operated differently from originally designed with the addition of smart technology to deliver financial savings to customers and stakeholders by mitigating the need for traditional reinforcement.</p> <p>The exposure gained in <i>eta</i> will further raise the profile of the Kelvatek business and its product range across the UK, EU and worldwide DNOs. But <i>eta</i> will also show that DNOs will need new technology to replicate the <i>eta</i> Method and the potential size of the market will attract Kelvatek's competitors to enter the market with alternative products.</p>
