

Coordinated decision under Article 12 of Regulation 347/2013 on the cross-border cost allocation request submitted by Shannon LNG (PCI 5.3)

On November 6th, 2013, Shannon LNG (the "Project Promoter") applied for a cross-border cost allocation (CBCA) in accordance with Article 12(3) of Regulation (EU) 347/2013 on guidelines for trans-European energy infrastructure and repealing Decision No 1364/2006/EC and amending Regulations (EC) No 713/2009, (EC) No 714/2009 and (EC) No 715/2009 (the "Regulation"). This CBCA application, along with all further information received from the Project Promoter by the NRAs, was transmitted for information without delay to the Agency for the Cooperation of Energy Regulators (the "Agency"), as per Article 12(3) of the Regulation.

The Commission for Energy Regulation, the Northern Ireland Authority for Utility Regulation and the Gas and Electricity Markets Authority (hereon the "NRAs"), having:

- evaluated the contents of the cross-border cost allocation proposal;
- reviewed the contents of the application in light of the Regulation and the Agency's Recommendation No 07/2013;
- considered the meeting held with the Project Promoter on February 21st, 2014;
- appraised all additional information provided in response to information requests forwarded to the Project Promoter on December 19th, 2013 and March 6th, 2014, and responded to on January 10th, 2014 and March 20th, 2014 respectively,

have concluded their consideration of the CBCA application and have agreed to allocate 100% costs to Ireland and 0% costs to Northern Ireland and Great Britain.

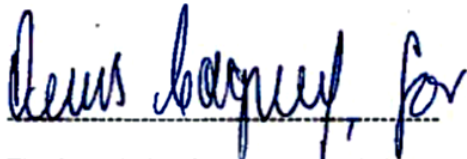

This decision has been taken pursuant to Article 12(4) and in consideration of Article 12(1) of the Regulation. This decision is in line with the cost allocation proposed by the Project Promoter of 100% to Ireland and 0% to Northern Ireland and Great Britain. This decision will have no tariff impact on either Northern Ireland or Great Britain. The Commission for Energy Regulation has set out in its individual decision letter the impact on tariffs if it were to approve an up-front payment from the Irish Transmission System Operator.

Attached to this decision are letters setting out the detailed reasons and basis for the NRAs' individual decisions in respect of this CBCA application, as required by Article 12(5) of the Regulation.

This decision is agreed on:

June 26th, 2014

By:

The Commission for Energy Regulation

The Northern Ireland Authority for Utility Regulation

The Gas and Electricity Markets Authority
