NOTICE UNDER SECTION 11A(2) OF THE ELECTRICITY ACT 1989

The Gas and Electricity Markets Authority (the Authority) hereby gives Notice pursuant to section 11A(2) of the Electricity Act 1989 (the Act) as follows:

1. The Authority proposes to modify the electricity transmission licence (the licence) granted or treated as granted under section 6(1)(b) of the Act by modifying Standard Condition C11 (Production of information about the national electricity transmission system).
2. The reason why the Authority proposes to make this licence modification is to update the licence to formalise the obligations on the System Operator to produce the electricity ten year statement.
3. The effect of the proposed modification is to remove the previous obligation on the System Operator to produce the Seven Year Statement. This obligation will be replaced with an obligation to produce a new, combined, statement of network development information known as the electricity ten year statement.
4. The new Standard Condition C11 sets out the System Operator's obligations to:
 - produce the electricity ten year statement (the statement) each year by 30 November;
 - ensure the statement meets certain objectives specified in the licence, and facilitates the development of an efficient, co-ordinated and economical system of electricity transmission;
 - prepare future scenarios to be included within the statement;
 - consult stakeholders on both the form of the statement and the future scenarios; and
 - submit to Ofgem the proposed form of the statement and the proposed future scenarios, together with details of stakeholder feedback received and an explanation of how this feedback has been taken into account.
5. A copy of the proposed modification and other documents referred to in this Notice have been published alongside this Notice and are available on the Ofgem website (www.ofgem.gov.uk).
6. Any representations with respect to the proposed licence modification must be made on or before 28 August to: Angelita Bradney, Office of Gas and Electricity Markets, 9 Millbank, London, SW1P 3GE or by email to Angelita.Bradney@ofgem.gov.uk.
7. All responses will normally be published on Ofgem's website. However, if respondents do not wish their response to be made public then they should clearly mark their response as not for publication. We prefer to receive responses in an electronic form so they can be placed easily on the Ofgem website.

8. If the Authority decides to make the proposed modification, it will take effect not less than 56 days after the decision is published.
