Ref No.	Salutation	Owner name	Owner address	Contact details	Contact email	Title number	Contact record	2014 Access granted	
								Yes/No	Date
91							02/08/2013 - AK had meeting with [REDACTED] access for surveys refused. 06/02/2013 - PG phoned, access for surveys refused. [REDACTED] confirmed that no access would be allowed until reasonable land value negotiations for the proposed substation had started on his land. PG explained that RWE really needed access for surveys ahead of negotiations and if landowners were not willing to grant involuntary access that RWE was able to apply for compulsory survey access. [REDACTED] said he would be willing to be helpful if only decent figures were considered. 10/02/14 - Questionnaire pack sent with request to respond within 2 weeks for survey access. 25/02/2014 Letter sent explaining that RWE Innogy need to carry out surveys and include the results in statutory consultations, and that some surveys can only be undertaken at certain times of the year. Therefore an application would be made for compulsory	No	06 February 2014

							much it will all cost? No access until full site meeting with project manager and RWE's agreement to pay all fees and costs incurred for the meeting. NB Explanations for the choice of route and substation have been made public through newsletters sent to local residents and landowners; through public exhibitions; and via 'landowner information packs' sent to all identified landowners along the proposed cable route.		
P19							10/02/14 - Questionnaire pack sent 18/02/14 - Questionnaire returned, access refused. Comments on the questionnaire stated: "As previously stated, we do not intend to grant access to any of our land for this scheme". 25/02/2014 Letter sent explaining that RWE Innogy need to carry out surveys and include the results in statutory consultations, and that some surveys can only be undertaken at certain times of the year. Therefore an application would be made for compulsory	No	18 February 2014

							survey access. A further offer to discuss survey arrangements was made. On 28.02.14 CS called [REDACTED] following a voicemail [REDACTED] received 25th Feb. [REDACTED] is very much against the proposed route and project. He asked why the cable cannot run down the beach and in the Wash. CS explained a number of routes were looked at but this is the preferred route. Asked why it cannot go to a different substation, again CS explained options had been looked at, but following discussions with National Grid, the Bicker Fen substation was the required for connection. [REDACTED] stated Anglian Water have been through his land previously and have ruined the land and caused flooding through drainage damage. CS stated we will be reinstating the drains and will be burying the cables below any identified drains so they can be accessed in the future. CS explained that this is the final route and will be hoping to
