

## **The Questionnaire – For customers**

Hello. Thank you for taking the time to complete our questionnaire.

We hope all the questions are clear, but if you have any difficulties please email [connections@ofgem.gov.uk](mailto:connections@ofgem.gov.uk).

Once you have completed the questionnaire please send it back to us to the email address above. You need to return the completed questionnaire to us by 31 July 2014.

After we have read your answers we might want to have a chat with you to understand a bit more. We'll try and do this in August.

### Part 1 - About you

Question	Your response
What is your name?	
What is your position?	
What are your contact details?	

### Part 2 - About your business

Question	Your response
What is your company's name?	Scarborough Laundry Ltd
What is the nature of your company's business?	Commercial and domestic laundry
Why do you need to make new connections to the electricity distribution network?	The present power connection was a wild guess by the landlord before we took the premises on. When we have our full amount of equipment in place it will require a larger supply than we have

What past experience does your business have in getting new connections to the electricity distribution network?	None
What areas of the country does your business have facilities in that have required new connections to the electricity distribution network?	North Yorkshire. YO12 7PN
What type of connections do you make to the distribution network?	?? 3 Phase

### Part 3 - About how you get a new electricity connections to the local grid.

Question	Your response
Does your business manage the process of getting a connection using your own staff, or do you use a consultant to guide you through the process?	Our Electrical installation man helps us
What issues are important for you when getting a connection? Please rank in order of importance, with 1 being the most important and 7 the least important.	<div>1 The cost of connection</div> <div>6 Customer service</div> <div>4 The time it takes to issue a connection quote</div>

	<div>3</div> <div>2</div> <div>5</div> <div></div>	<p>The time in which a connection can be made</p> <p>The certainty around the cost of connection and the timetable for delivery</p> <p>Ability to offer innovative connection solutions</p> <p>Other _____(please specify)</p>
<p>In the past have you had quotes for connection(s) from a range of companies, or solely from the local DNO?</p> <p>Please tick one box.</p>	<div></div> <div>7</div>	<p>A range of quotes – <u>please go to part 4</u></p> <p>Just a quote from the local DNO – <u>please go to part 5</u></p>

## Part 4 – About how you choose between a range of quotes.

Question	Your response
You've indicated that you normally receive a range of quotes for connection, both from your local DNO and other independent connection providers. When deciding which quote to accept, what factors do you consider?	
Please rank these factors that you described in the previous question in order of importance to you, with 1	1. 2. 3.

being the most important.	4. 5. Etc.
Please give an indication of who you have tended to award work to.	<p><b>Please tick one box only.</b></p> <p><input type="checkbox"/> Always the DNO</p> <p><input type="checkbox"/> Mainly the DNO</p> <p><input type="checkbox"/> About half and half between the DNO and others</p> <p><input type="checkbox"/> Mainly an ICP or IDNO</p> <p><input type="checkbox"/> Always an ICP or IDNO</p>
What do you think are the risks/problems with using an independent connections provider?	
How has your view on who to award work to changed with experience?	
When would you only seek a quote from the local DNO?	

### Part 5 – About why you chose to use the local DNO

Before engaging with this process, were you aware that you could use a company other than the local DNO to complete your connection?	<input type="checkbox"/> <b>Yes</b>
	<input checked="" type="checkbox"/> <b>No</b>
What do you think are the benefits in using a company other than the local DNO to provide a connection?	I DO NOT KNOW
What do you think are the risks/problems with using an independent connections provider?	Any problems will probably take longer to solve
What would need to change in order for you to use a different connections provider?	If they were half the cost

### Part 6 - About how the cost of connections informs the location of new business development

How much opportunity is there for you to freely choose the location of new business developments?	Not much
How big a factor is the cost of connection in your decision on where to locate your business?	The cost of all utilities is the biggest problem we face

## Part 7- Other comments

The questions we've asked are designed for you to give us important information for our review. We'd also welcome any other comments about the market for new electricity connections, or problems you've experienced.

The prices quoted are ridiculous  
For a supply nearly 4 times what we have  
£14,000 plus which involved a bigger transformer sighting in the local shed  
which is part of our building a much bigger cable and a larger box in our site.

OR to double our supply which we now think will be enough  
£7500 for a pice of Cable 8 foot long and then we are told we have to do all  
the digging which is on a public footpath !!!  
A realistic cost would be 2 grand maximum.

The pricing is extortion at its very best !!!!
