Part 7- Other comments

The questions we've asked are designed for you to give us important information for our review. We'd also welcome any other comments about the market for new electricity connections, or problems you've experienced.

I had a problem with Northern Powergrids not accepting that there was no electricity supply, then when I accepted the quote and paid it will take another two months to get connected. I shudder to think that someone else could deal with this, even if I knew I could have gone elsewhere. The phone system is ridiculous.
