

## **The Questionnaire – For customers**

Hello. Thank you for taking the time to complete our questionnaire.

We hope all the questions are clear, but if you have any difficulties please email [connections@ofgem.gov.uk](mailto:connections@ofgem.gov.uk).

Once you have completed the questionnaire please send it back to us to the email address above. You need to return the completed questionnaire to us by 31 July 2014.

After we have read your answers we might want to have a chat with you to understand a bit more. We'll try and do this in August.

What do you think are the benefits in using a company other than the local DNO to provide a connection?	Quicker reaction times
What do you think are the risks/problems with using an independent connections provider?	Level of service    Health & safety
What would need to change in order for you to use a different connections provider?	Proof of delivery

## Part 6 - About how the cost of connections informs the location of new business development

How much opportunity is there for you to freely choose the location of new business developments?	none
How big a factor is the cost of connection in your decision on where to locate your business?	Not at all , Has to be situated where there is easy access to a relevant cable

## Part 7- Other comments

The questions we've asked are designed for you to give us important information for our review. We'd also welcome any other comments about the market for new electricity connections, or problems you've experienced.

The main issue I have is the way that DNOs deal with , and are allowed to deal with, 5<sup>th</sup> core cabling.

At present when this cable(which is owned by the SErvoce provider) fails, quite often causing there to be several outages, the DNO will only provide a single point of supply, leaving the Local Authority to install the cabling required to energise the affected lighting point. This is extremely expnsive and very unfair.
