 Agency for the Cooperation  
of Energy Regulators

# **Transaction and fundamental data**

Introduction to transaction and  
fundamental data reporting including  
RRMs

***Elio Zammuto***

*Seconded National Expert*

*Market Monitoring Department*

**Ofgem seminar on REMIT**  
**London, 1 December 2014**

The information and views set out in this presentation are those of the speaker and do not reflect the official position of the Agency for the Cooperation of Energy Regulators (ACER), unless expressly stated otherwise in written.

This presentation is provided for information only and does not constitute formal guidance from ACER.

Market participants, where necessary, should seek legal advice on their legal position.

## **REMIT implementation**

1. What to report:
  - Reporting of trade data
  - Reporting of electricity fundamental data
  - Reporting of gas fundamental data
  
2. When to report:
  - Timeline
  
3. How to report:
  - Through OMPs
  - Third-party RRM
  - TSOs
  - Self-reporting market participants

## Reporting of trade data

	MPs through OMPs	TRs and ARMs	TSOs	MPs	Third-party RRM	When?
<b>WEPs (supply, transportation, derivatives contracts), including matched and unmatched orders, executed at OMPs</b>	√				√	9 months following the IA's entry into force
<b>Derivatives reportable under EMIR</b>		√				Within 9 months following the IA's entry into force
<b>Transportation contracts (primary allocation)</b>			√		√	15 months following the IA's entry into force
<b>WEPs (supply, transportation and derivatives contracts not reportable under EMIR) executed outside OMPs</b>				√	√	15 months following the IA's entry into force

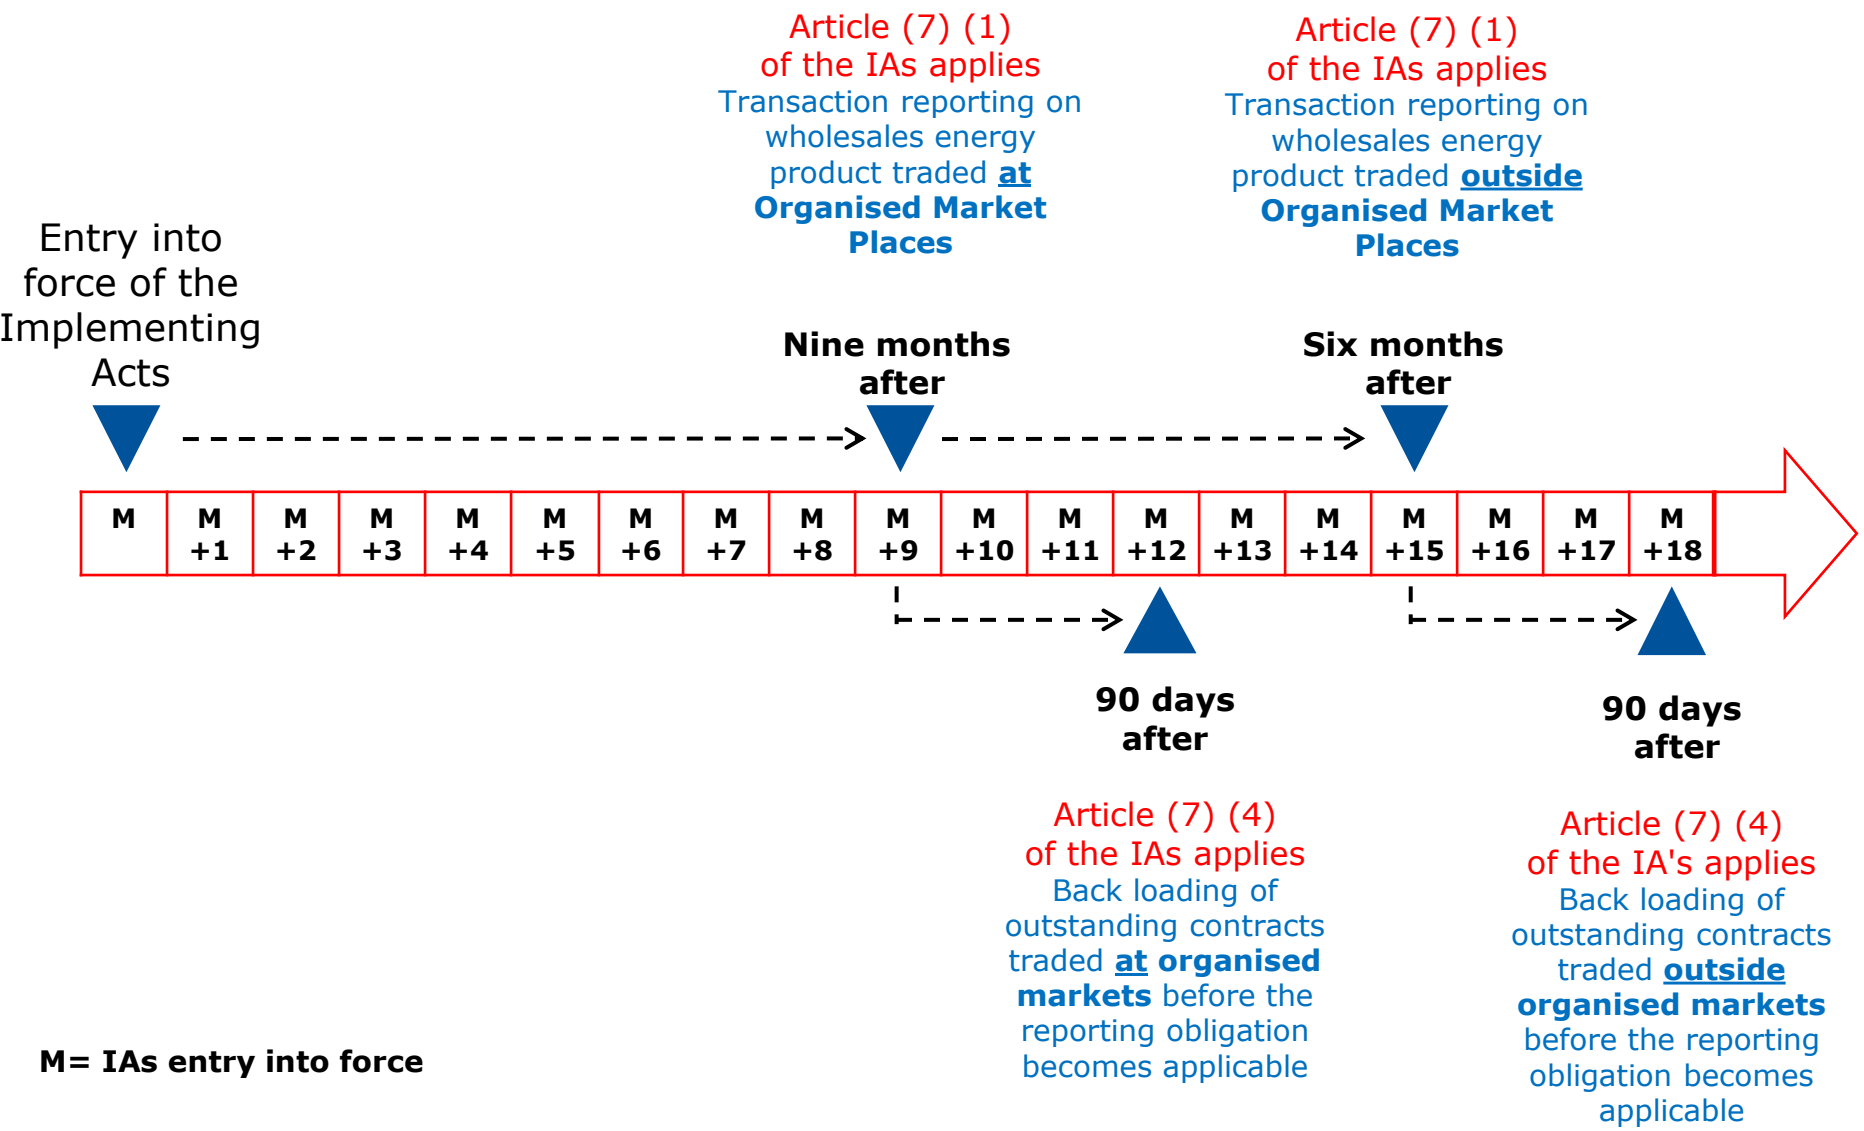

## Reporting of electricity fundamental data

	ENTSO-E on behalf of MPs	TSOs	Third-party RRM	MPs	When?
<b>Transparency platform data</b>	√				9 months following the IA's entry into force, but not before the platform is operational
<b>Electricity Nominations</b>		√	√		15 months following the IA's entry into force

## Reporting of gas fundamental data

	ENTSOG on behalf of MPs	TSOs	LSOs	SSOs	Third- party RRMs	MPs	When?
Central platform data	√						9 months following the IA's entry into force
Gas Nominations		√			√		15 months following the IA's entry into force
Availability of LNG facilities			√		√		
Unloading and reloading of LNG			√		√	√	
Availability of storage facilities				√	√		
Amount of gas stored				√	√	√	

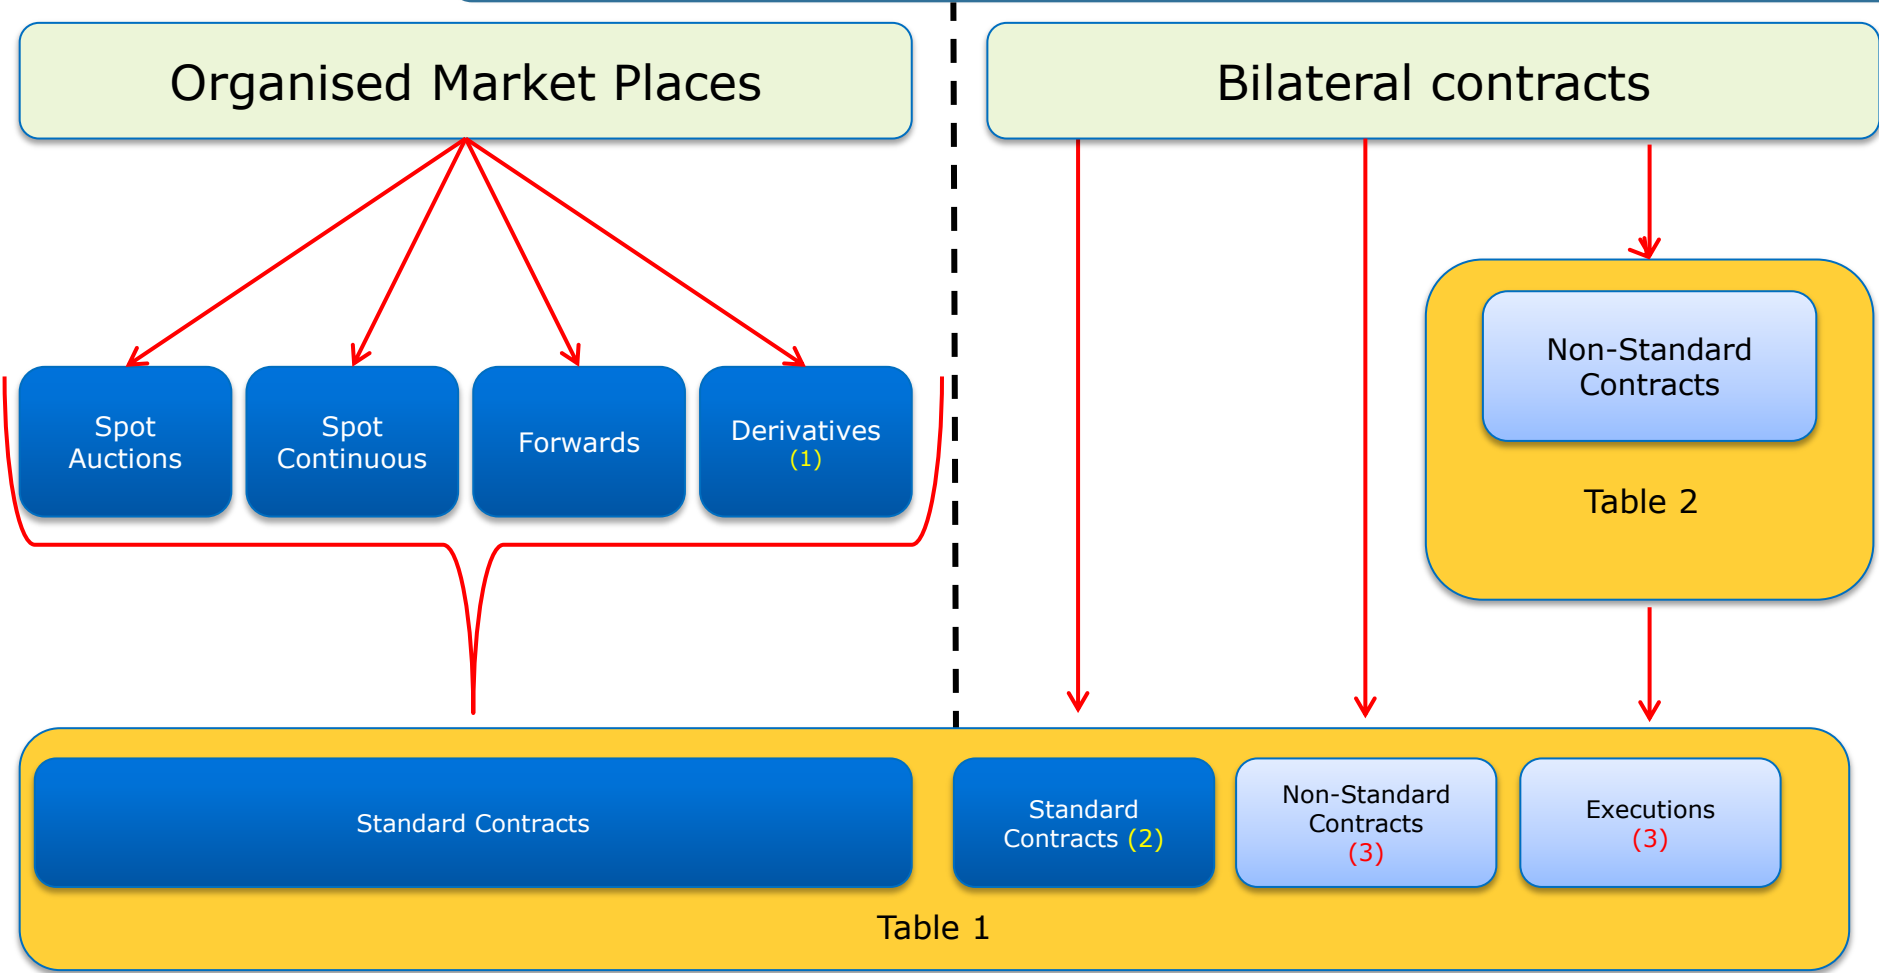

# Reporting Timeline

M= IAs entry into force

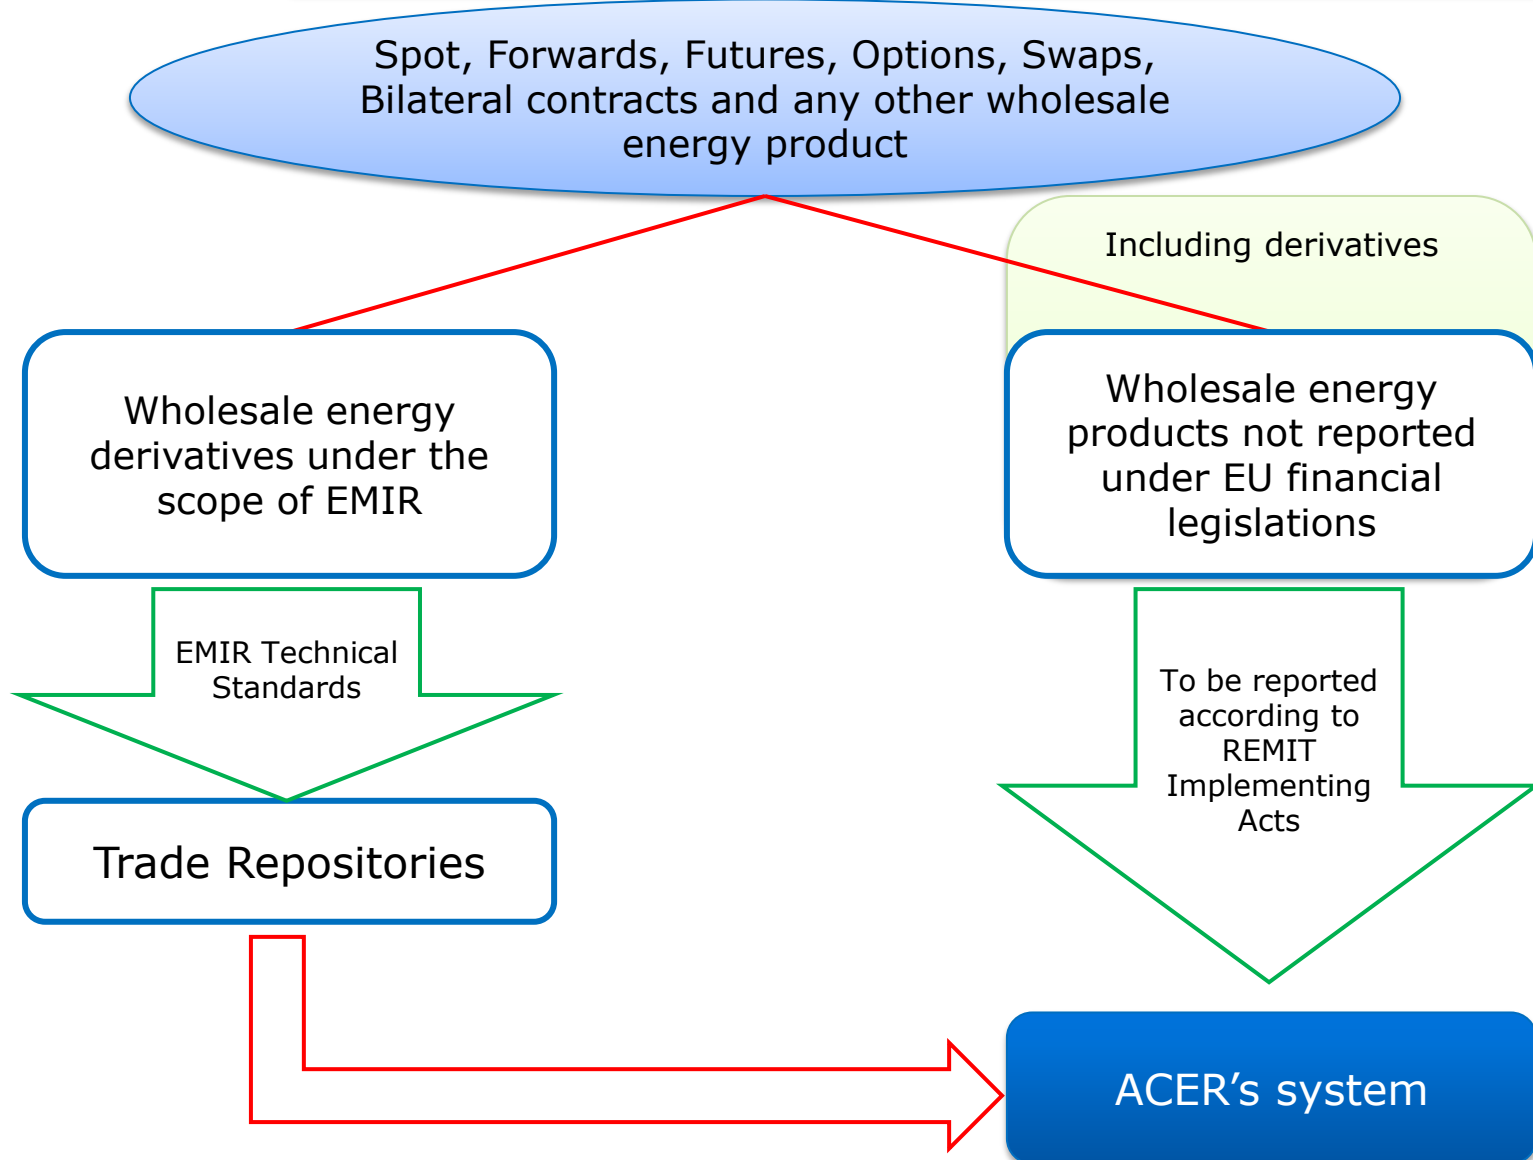

- Standard vs non-standard contracts
- Transaction reporting: scope of REMIT vs EMIR
- Market abuse: scope of REMIT

# Standard vs non-standard contracts

- (1) Trades not reported under EU financial legislations
- (2) Contracts that are admitted to trade at Organised Market Places
- (3) Details of transactions executed within the framework of non-standard contracts specifying at least an outright volume and price shall be reported using Table 1 of the Annex to the IAs.

# Transaction reporting: REMIT vs EMIR according to the EC's draft IAs

## Market Abuse in Wholesale Energy Markets may fall under the scope of the Market Abuse Directive (MAD) or REMIT

Article 1 of REMIT: *"This Regulation applies to trading in wholesale energy products. Articles 3 and 5 of this Regulation **shall not apply to** wholesale energy products **which are financial instruments** and to which Article 9 of Directive 2003/6/EC applies."*

Transactions	Venue	Under the scope of	
		MAD	REMIT
Financial Instruments (e.g. Futures, Forwards Options, Swaps)	Regulated Markets	√	
	MTFs		√
	OTC		√
Spot transactions	Exchanges, MTFs, OTC		√
Physical Forward transactions	MTFs		√
	OTC		√
Other transactions	OTC		√

ANNEX – Data fields included in the draft implementing acts

ANNEX – Reference data to be collected for the list of standard contracts

ANNEX – Examples of transaction reporting

ANNEX – Reporting of REMIT derivatives under EMIR

ANNEX – Examples of transaction reporting

## Data Field No (1) ID of the market participant or counterparty

No.	Field Identifier	Description
1	ID of the market participant or counterparty	The market participant or counterparty on whose behalf the record of transaction is reported shall be identified by a unique code.

Description of Accepted Values	Type	Length	Examples
ACER code	Alphanumeric	12	C0643278W.EU
LEI		20	1a2b3c4d5e6f7g8e9f0h
BIC		11	ACERSILJ500
EIC		16	10YCB-EUROPEU--8
GS1/GLN code		13	a1b2c3d4e5f6g

This field aims to capture the ID of the market participant or counterparty on whose behalf the order to trade or transaction is reported. The market participant or counterparty shall be identified by the unique code registered with their NRA. If the market participant has all the codes listed in field 1, all of them have to be reported when registering with the NRA. Market participant and counterparty refers to the same party of the trade.

From the Agency's perspective, the ACER code is the preference but all the other codes may also be used. If a market participant is already using LEI for EMIR reporting that market participant could use the LEI code also for REMIT reporting. If market participants prefer the LEI because it is already used for EMIR, they are free to use it as long as the LEI has been provided to the NRAs in the registration process.

If a market participant is using an ACER code, the market participant/counterparty will be able to verify the identity of the other market participant from the European register of market participants published by the Agency available at the Agency's website.

## Trading Scenario n. (1.1): Electricity hourly contract traded on an Auction Market (exchange)

This example shows how to report a transaction on a wholesale energy product traded on an Auction Market. The information reported below aims to show what buyers and sellers have to report to the Agency for this particular type of transaction.

**Type of organised market place:** Auction Market  
**Transaction reporting type:** Trade report  
**Contract type:** Hourly  
**Energy commodity:** Electricity

All the fields reported below are mandatory for this type of transaction. Fields that are blank are not required to be reported for this type of transaction. If a transaction reporting includes additional or fewer fields than those reported below, that transaction needs to be covered by another example.

N	Field Identifier	(buyer order)	(buyer trade)
<b>Parties to the contract</b>			
1	ID of the market participant or counterparty	a1b2c3d4e5f6g7h8i9l0	a1b2c3d4e5f6g7h8i9l0
2	Type of code used in field 1	LEI	LEI
3	ID of the trader and / or of the market participant or counterparty as identified by the organised market place	Trader12345	Trader12345
4	ID of the other market participant or counterparty		Z1234567Y.EU
5	Type of code used in 4		ACE
6	Reporting entity ID	T1241247G.EU	T1241247G.EU
7	Type of code used in 6	ACE	ACE
8	Beneficiary ID		
9	Type of code used in field 8
