Dear Colleague,

**Certification under the ownership unbundling requirements of the Third Package¹
Decision of the Gas and Electricity Markets Authority ('the Authority')**

Gwynt y Môr OFTO plc (the 'Applicant', which has been renamed from Gwynt y Môr OFTO plc since our preliminary decision of 10 November 2014) submitted an application under section 10B(2) of the Electricity Act 1989 (the 'Electricity Act') requesting to be certified pursuant to the ownership unbundling requirements (as set out in Article 9(1) of the Electricity Directive and transposed into GB law in section 10F of the Electricity Act).

This letter sets out the Authority's final decision on the Applicant's application for certification under section 10D of the Electricity Act.

Application for certification

The Applicant is expected to become a licensed offshore transmission system owner (OFTO) in 2015 under section 6(1)(b) of the Electricity Act. It is ultimately owned and controlled by Balfour Beatty plc ('BB plc', a UK listed company) and John Van Deventer ('JVD') (a British national and British resident).

¹ The term 'Third Package' refers to Directive 2009/72/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in electricity and repealing Directive 2003/54/EC ('Electricity Directive'); Regulation (EC) No 714/2009 of the European Parliament and of the Council of 13 July 2009 on conditions for access to the network for cross-border exchanges in electricity and repealing Regulation (EC) No 1228/2003 ('Electricity Regulation'); Directive 2009/73/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in natural gas and repealing Directive 2003/55/EC ('Gas Directive'); Regulation (EC) No 715/2009 of the European Parliament and of the Council of 13 July 2009 on conditions for access to the natural gas transmission networks and repealing Regulation (EC) No 1775/2005 ('Gas Regulation'); and Regulation (EC) No 713/2009 of the European Parliament and of the Council of 13 July 2009 establishing an Agency for the Cooperation of Energy Regulators.

The Applicant requested certification on the first certification ground, which is set out in section 10E(3) of the Electricity Act. The first certification ground is that the Applicant meets the ownership unbundling requirement in section 10F of the Electricity Act.

The Authority is required to apply five tests in order to determine whether the Applicant meets the ownership unbundling requirement:

The first test is that the applicant—

- (a) does not control a relevant producer or supplier;
- (b) does not have a majority shareholding in a relevant producer or supplier; and
- (c) will not, on or after the relevant date, exercise shareholder rights in relation to a relevant producer or supplier.

The second test is that, where the applicant is a company, partnership or other business, none of its senior officers has been, or may be, appointed by a person who—

- (a) controls an electricity undertaking which is a relevant producer or supplier; or
- (b) has a majority shareholding in an electricity undertaking which is a relevant producer or supplier.

The third test is that, where the applicant is a company, partnership or other business, none of its senior officers is also a senior officer of an electricity undertaking which is a relevant producer or supplier.

The fourth test is that the applicant is not controlled by a person who controls a relevant producer or supplier.

The fifth test is that the applicant is not controlled by a person who has a majority shareholding in a relevant producer or supplier.

On the basis of the information contained in the application and further information provided by the Applicant, the Authority considered that each of the five tests set out in section 10F of the Electricity Act was met by the Applicant.

On 10 November 2014, the Authority made its preliminary decision under section 10D(1) of the Electricity Act to certify the Applicant as independent. The Authority's preliminary decision was notified to the Applicant, the Secretary of State and the European Commission (the 'Commission') in accordance with section 10D(4) of the Electricity Act.

The Authority received the Commission's opinion on 7 January 2015². In accordance with Article 3(2) of the Electricity Regulation, the Authority has taken utmost account of that opinion in reaching its final decision.

Certification decision

The Authority's final decision is that as of and from the date of this decision, the Applicant should be certified as independent on the basis that each of the five tests set out in section 10F of the Electricity Act are met by the Applicant.

On the date of licence grant and in accordance with section 10H(2) of the Electricity Act, the Applicant will become an OFTO licence holder and will be designated as an electricity transmission system operator for the purposes of Article 10(2) of the Electricity Directive.

In accordance with section 10D(7) of the Electricity Act, the Authority hereby notifies the certification of the Applicant to the Applicant, the Secretary of State and the Commission.

In accordance with section 10I of the Electricity Act, the Authority will monitor whether the basis on which it decided to certify the Applicant continues to apply following the Authority's final decision and if appropriate, will review its certification decision.

Attached to this letter is a copy of the certification decision granted by the Authority.

Yours sincerely,

Stephen Beel
Associate Director, Offshore Transmission
