Dear Kersti,

**Proposed modification to SHE Transmission's licence: Caithness Moray reinforcement**

Thank you for the opportunity to comment on the proposed modification to Scottish Hydro Electric Transmission plc's (SHE Transmission) electricity licence special condition 1B (Transmission Area) and special condition 6I (Specification of Baseline Wider Works Outputs and Strategic Wider Works Outputs and Assessment of Allowed Expenditure).

The proposed licence modifications follow a decision by the Authority concerned with our proposed Caithness Moray reinforcement project in the north east of Scotland, along with a minor housekeeping change to special condition 6I for the Kintyre Hunterston and Beaulieu Mossford projects.

As such, we have no objections to the proposed licence condition modifications.

Yours sincerely,

Malcolm J. Burns  
**Senior Regulation Manager**
