

Making a positive difference  
for energy consumers

## Capacity Market Rules Change

Reference number (to be  
completed by Ofgem):  
**P022**

**Name of Organisation(s) / individual(s):**  
Energy UK

**Date Submitted:**  
23 January

**Type of Change:**

- Amendment
- Addition
- Revoke
- Substitution

**If applicable, whether you are aware of an alternative proposal already submitted which this proposal relates to:**

**What the proposal relates to and if applicable, what current provision of Rules the proposal relates to (please state provision number):**

Amend Rule 3.4 so that CMUs which pre-qualified in the previous year's auction do not have to re-enter data for following years, provided all information is the same.

**Description of the issue that the change proposal seeks to address:**

It is an onerous requirement to resubmit the pre-qualification information every year when nothing has changed. Where an applicant has previously pre-qualified a CMU, the info on the CM Register can be quoted back to the Applicant by the Delivery Body and reconfirmed rather than it having to be re-submitted entirely. In other words, we suggest that the Delivery Body just pre-populates the pre-qualification system and the party then agrees or amends the data.

**If applicable, please state the proposed revised drafting (please highlight the change):**

**Analysis and evidence on the impact on industry and/or consumers including any risks to note when making the revision - including, any potential implications for industry codes:**

**Details of Proposer (please include name, telephone number, email and organisation):**
