for energy consumers

Capacity Market Rules Change

Reference number (to be
completed by Ofgem):
P035

Name of Organisation(s) / individual(s):
Green Frog Power

Date Submitted:
23 January 2015

Type of Change:

- Amendment
- Addition
- Revoke
- Substitution

If applicable, whether you are aware of an alternative proposal already submitted which this proposal relates to:

What the proposal relates to and if applicable, what current provision of Rules the proposal relates to (please state provision number):

CMUs that have prequalified in the past should not have to re-enter data in later prequalification windows if the data have not changed and/or the Applicant does not wish to make a change.

Description of the issue that the change proposal seeks to address:

It is an inefficient and labour intensive requirement to resubmit the pre-qualification information every year when nothing has changed.

If applicable, please state the proposed revised drafting (please highlight the change):

Where an applicant has previously pre-qualified a CMU, the information on the Capacity Register should be quoted back to the Applicant by the Delivery Body and reconfirmed rather than requiring a completely new submission. The Applicant should be able to agree or amend the data already in the system.

Analysis and evidence on the impact on industry and/or consumers including any risks to note when making the revision - including, any potential implications for industry codes:

N/A

Details of Proposer (please include name, telephone number, email and organisation):
