

Proposal for a Capacity Market Rules Change

Making a positive difference
for energy consumers

Reference number (to be completed by Ofgem):
P088

Name of Organisation(s) / individual(s):
DECC

Date Submitted:
12/02/15

Type of Change:

- Amendment
- Addition
- Revoke
- Substitution

If applicable, whether you are aware of an alternative proposal already submitted which this proposal relates to:

Proposals P023, submitted by Energy UK, P036, P037, P060 and P066 submitted by National Grid, are the most relevant to this high level proposal.

What the proposal relates to and if applicable, what current provision of Rules the proposal relates to (please state provision number):

Review of the information required to be submitted by applicants in the prequalification window.

Description of the issue that the change proposal seeks to address:

Review of current requirements to ensure applicants are only required to submit information as part of their application which is materially significant to determining their prequalification status. Additional data, such as information provided in response to metering questions, could be requested later in the process.

If applicable, please state the proposed revised drafting (please highlight the change):

Analysis and evidence on the impact on industry and/or consumers including any risks to note when making the revision - including, any potential implications for industry codes:

None

Details of Proposer (please include name, telephone number, email and organisation):

Simon Francis, DECC
