21 January 2015

Dear Paul,

Statutory consultation on Ofgem's proposals to revise existing standards of performance for relevant electricity distributors

Scottish and Southern Energy Power Distribution welcomes the opportunity to respond to the recent statutory consultations on proposed amendments to the Electricity (Standards of Performance) Regulations 2010 and the Electricity (Connections Standards of Performance) Regulations 2010.

We fully support the ENA response that has been submitted on behalf of the fourteen DNOs. We have no additional comments in relation to the proposed amendments and consider that these are, in the main, in line with the decisions set out in the Ofgem Strategy Decision and the follow up to the Christmas 2013 Storms Review.

Yours sincerely,

Gwen MacIntyre
