DONG Energy is one of the leading energy groups in Northern Europe. Our business is based on procuring, producing, distributing and trading energy and associated products across Northern Europe. DONG Energy has around 6,500 employees and is headquartered in Denmark including 600 in the UK. The Group generated DKK 67 billion (EUR 9.0 billion) in revenue in 2014.

We are pleased to respond to Ofgem's consultation on proposed changes to the recognition process for EU Guarantees of Origin for GB Fuel Mix Disclosure (FMD). We understand Ofgem's administrative challenges and as an energy company operating in a number of European countries, we welcome the proposal to streamline and standardise the existing EU GoO recognition process for FMD process.

As proposed in the consultation, we will work with the GoO originators to ensure that the template is completed correctly.

Yours sincerely  
DONG Energy
