

To the CCL and REGO Team

EDF Energy would like to thank Ofgem for the opportunity to comment on and inform the changes in process outlined by this consultation. We support the changes outlined in the consultation letter.

However, we do have one point to seek clarity on. The consultation asks that we provide all cancellation statements in excel format. Currently we receive these from our counterparties in PDF format. While we will endeavour to get the cancellations statements in excel, our understanding is that if it is not possible then PDF format will suffice. It will obviously be easier for both us as a supplier and Ofgem if the cancellations statements were in excel and we will continue to work with our counterparties to achieve a more consistent use of the Excel format.

Kind regards

Martin Pearce
