Dear Joanna,

Notice to issue regulatory instructions and guidance under the electricity distribution network operators price control RIIO-ED1

Following the Statutory Notice issued on 24th April 2015, we are pleased to advise that we have conducted a comprehensive review of the Regulatory Instruction Guidance and observe that the documentation has developed significantly since this process began. We would like to thank the Ofgem teams for their hard work throughout this process.

We would be grateful if the comments found in the attached template could be taken into consideration before the final RIGS are published next month. The majority of our comments are minor in nature, however, will provide the reader with further clarity and avoid any ambiguity.

Whilst we only wish to raise minor comments in our response template; at a higher level, we are cautious about the value to stakeholders and Ofgem of producing extended Environmental reporting. In the interest of being constructive, we will complete the proposed reporting pack using appropriate estimates; however, we would ask to meet with Ofgem to review the benefit of the reporting in a year's time.

If you have any queries on this response or any further questions, please do not hesitate to contact me.

Yours sincerely,

**Scott Mathieson
Regulation and Network Planning Director
