Dear Louise

REMIT Procedural Guidelines and Penalties Statement Consultation

E.ON views the proposed changes to Ofgem's REMIT Procedural Guidelines and REMIT Penalties Statement as appropriate responses to continuing developments in REMIT and the changes recently made to Ofgem's general enforcement procedures. We also observe that the two documents together helpfully provide a useful reference against which organisations can measure their REMIT compliance procedures and the compliance messages within those procedures.

We have no specific comments on the questions asked by the consultation and would not wish to judge as to what constitutes the appropriate measures described in the questions, such as the appropriate percentages for discounts relating to for early settlement, or the revenues that form the starting point of a penalty. Nevertheless, we are supportive the proposals as set out by the questions, in particular the flexible nature of the penalties statement, where the scale of the actual penalty can reflect a number of factors relevant to the case.

We trust that this feedback is of help. Please contact us if there are any points you would like us to consider in further detail.

Yours sincerely

Ian Jackson
