United Kingdom

For the attention of Ms. Victoria Volossov, Manager, Gas Wholesale Markets

Dear Ms. Volossov,

ELF Exploration UK Plc. representation to the statutory consultation on the proposed modifications of standard licence condition 1(1) of the gas shipper licence

Thank you for the opportunity to respond to this aforementioned consultation in the role of a UK Gas Shipper Licensee.

As a downstream gas shipper operating within the NTS, we believe that the Capacity Allocation Mechanisms in Gas Transmission Systems and Balancing of Gas Transmission Systems within the EU Network Codes apply to downstream shipping operations, and thus should be duly reflected within NTS Gas Shipper licences. For this reason, we have no objections to Ofgem's proposed changes to the Gas Shipper Licence conditions.

Yours sincerely,

Anna Upesleja Grant
