Dear Min,

Re: RES response to statutory consultation on proposed licence modifications to Standard Licence Conditions 14 and 15 of the electricity generation license.

Renewable Energy Systems Limited (RES) is one of the world's leading independent renewable energy project developers with operations across Europe, the Americas and Asia-Pacific. RES has been at the forefront of wind energy development since the 1980s and has developed and/or built more than 8GW of wind energy capacity worldwide, including projects in the UK, Ireland, France, Scandinavia and the United States.

RES welcomes the opportunity to respond to the above Ofgem consultation dated 24 March 2015 ("the consultation"). We are supportive of the proposed changes and have no specific comments to add.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'G.Pannell', is positioned above the typed name.
