Dear Stephen

Competition in Connections – Notice of proposed licence modifications to the standard licence conditions of the electricity distribution licence

SP Energy Networks support the relevant changes required to implement the Connections Code of Practice. The licence condition, together with the Code of Practice (SLC 52) should facilitate competition in the Local Connections Market in line with Ofgem's proposed policy.

In line with SLC 52.9, we will ensure that the current version of the Competition in Connections Code of Practice is published on our website once the proposed licence condition comes into effect.

Yours sincerely

Stephanie Rogan
