Dear Kersti,

Re: Statutory Consultation to modify the transmission licence to give effect to the Enhanced System Operator proposals

On behalf of Scottish Hydro Electric Transmission (SHE Transmission), I am writing in response to the above consultation. We have reviewed the revised drafting to modify the transmission licence and have no further representation that we wish to make at this time.

We have also reviewed the covering letter and appreciate the feedback provided in Annex 1. We appreciate the feedback provided and believe the approach proposed with regard to modifying Standard Condition B12 at a later stage to provide time for the modification process under the System Operator Transmission Owner Code (STC) is appropriate. We look forward to discussing the timing for this modification with Ofgem in due course.

If you have any questions in relation to this response, please feel free to contact me.

Yours sincerely,

Jen Carter

Networks Regulation, Transmission
