

Energy Company Obligation

Monthly Update

22 Sept 2015

Issue 3

Dear Stakeholder

Welcome to the third Energy Company Obligation (ECO) monthly newsletter.

Below we link to the latest information about ECO, including our regular compliance update for ECO2 and DECC's latest statistics on ECO and the Green Deal.

This month we direct readers to a DECC consultation on the delivery of Household Energy Efficiency Statistics in Great Britain.

We also highlight the upcoming publication of our ECO1 final report, and note the recent publication of a revised ECO Measures Table.

Latest news and updates

[ECO compliance update](#)

Our monthly compliance update shows progress towards ECO targets.

The information is displayed in online charts and data tables.

These give an overview of energy companies' progress towards their ECO2 targets to the end of July 2015.

[View the update](#)

[DECC's home energy efficiency statistics consultation](#)

The consultation covers statistical releases relating to the Green Deal and ECO. It is due to conclude on 30 September 2015.

The consultation sets out proposals for changing the frequency, format and content of these publications.

Other recent developments

ECO1 final report

The final ECO1 report is due to be published on 30 September 2015. It will cover the final compliance position of the obligated energy companies as well as providing an overview of the scheme.

The document will be published on our website.

[ECO Guidance](#)

Here you can access guidance and information on the legislative provisions of the ECO2 Order and how we administer the scheme. [Read more](#)

[Updated measures table](#)

A revised ECO2 [Measures Table](#) was published and now includes Loft Insulation Ceiling: Top-up 100.

The measures table has been updated in line with [our guidance note](#) published in June 2015. This enables loft insulation measures to be notified where previous loft insulation has been removed in the six months prior to an RdSAP assessment. The new measure name should be used when notifying these measures from 1 October 2015.

[Public reports](#)

View all progress reports for the ECO published to date. This page will be updated regularly. [Read more.](#)

[Installer FAQs](#)

Our ECO FAQs help improve installer and other parties involved in ECO understanding of the scheme. [Read more.](#)

[About ECO](#)

ECO is a government scheme to reduce carbon dioxide emissions from Britain's domestic housing and support people living in fuel poverty by funding improvements to homes that make them more energy efficiency improvements in homes.

It places legal obligations on larger energy suppliers to deliver energy efficiency measures to domestic premises in Great Britain. The scheme began in 2013, and the overall obligation period for the second phase of ECO (ECO2) runs from 1 April 2015 to 31 March 2017.

Ofgem E-Serve is the administrator of ECO while DECC is responsible for the policy.
