

Open letter consultation on the Incentive on Connections Engagement:
Looking Forward reports 2015/16

Response received by email dated 4 August 2015 from TUSC re SSEPD

Sirs

Please find our response to SSEPD's submission:

Q1

Yes. In our experience SSEPD already engage readily with stakeholders and their Looking Forward report is excellent in that outlines further improvements in this regard. The provision of a clear and concise means of engaging with SSEPD through their 'More ways for you to engage with us' section should serve as a model for all DNOs to facilitate their own engagement throughout the regulatory year.

Q2

In our opinion SSEPD have set an ambitious and comprehensive work plan of activities and delivery dates that are applicable across the different market segments and which will meet the requirements of connection stakeholders.

Q3

Yes, SSEPD have set relevant outputs against which to measure their delivery. The provision of the work plan, broken down into geographical areas and market segments with commitment time frames and corresponding KPIs is a well thought out move and will in our view facilitate tracking of work plan delivery in the future.

Q4

Yes, we particularly like the way that SSEPD have set out the type and nature of respondents that have informed its approach and endorsed its strategy, activities and outputs. What we cannot tell is actual breadth (or depth) of the stakeholders and to further improve SSEPD should also publish this information.

Kind regards
