Ofgem  
9 Millbank  
London  
SW1P 3GE

Date: 31 August 2015

Dear Mick,

**Consultation on our minded-to position for the review of costs associated with the TPCR4 enhanced physical security upgrade programme and the RIIO-T12 and RIIO-GD13 enhanced physical site security uncertainty mechanisms**

Thank you for the opportunity to comment on the above consultation. SHE Transmission welcomes Ofgem and its consultant's view that the costs spent at our sites are 'value for money' and that no inefficiencies were identified.

We agree with Ofgem's minded-to decision that no RAV adjustments should be made for SHE Transmission.

Yours sincerely,

Malcom J Burns  
**Senior Regulation Manager**
