Dear colleagues,

**Modification of the electricity transmission licence of National Grid Electricity Transmission plc under Section 6(1)(b) of the Electricity Act 1989**

Our Notices on 17 September 2015 proposed to modify the following special conditions of the electricity transmission licence held by National Grid Electricity Transmission plc NGET:

- 4A (Restriction of System Operator Internal Revenue)
- 4L (EMR Dispute Resolution Incentive)
- 7D (Arrangements for the recovery of SO uncertain costs)

We received one response, which commented on the proposed modifications to special condition 4A. The representation highlighted minor typographical errors to special condition 4A which have now been corrected.

Please find attached the modifications which have also been published on our website.

Yours faithfully,

.....  
**Adam Cooper,**  
**Associate Partner, Markets**
