

# Energy Company Obligation

Monthly Update

17 Nov 2015

Issue 5

Dear Stakeholder

## Welcome to the Energy Company Obligation (ECO) monthly newsletter.

In this month's ECO newsletter you can find the presentation slides and minutes from the latest ECO stakeholder delivery group. This includes slides from DECC that outline the ongoing Bonfield Review, and its thoughts on the future direction of ECO.

We also point to the recently-launched ECO technical requirements consultation, and to the updated Consumer FAQs on our website.

Finally, we link to our regular compliance update for ECO2, and DECC's latest statistics on ECO and the Green Deal.

## Latest news and updates

### [ECO delivery group](#)

The latest ECO delivery group was held on 29 October.

Presentations were given on the theme of quality and standards. DECC also outlined the scope of the ongoing Bonfield Review, and its thoughts on the future direction of ECO.

The [slides and minutes](#) are available online.

[View the documents](#)

### [ECO2 technical consultation](#)

We would like your views on two elements of scheme delivery within ECO2.

The [consultation](#) asks for views on the lifetimes given for wall insulation measures without an appropriate guarantee, and also on technical monitoring re-inspection requirements.

The consultation closes on 30 November 2015.

[View the consultation](#)

### [Updated FAQs published](#)

This month, we updated the [consumer FAQs](#) on our website.

These are responses to commonly-asked questions about ECO, and are designed to assist consumers.

You can get more help by contacting the ECO team directly.

# Other recent developments

## ECO compliance update

Our [monthly compliance update](#) shows energy companies' progress towards ECO targets.

The information is displayed in charts and data tables.

The overview of energy companies' progress towards their ECO2 targets are based on measures notified by the end of September 2015 and approved by the end of October 2015.

## ECO Guidance

Here you can access guidance and information on the legislative provisions of the ECO2 Order and how we administer the scheme. [Read more](#)

## Public reports

View all progress reports for the ECO published to date. This page will be updated regularly. [Read more.](#)

## DECC's Green Deal and ECO statistics

DECC has published its regular [monthly statistical release](#) on ECO and the Green Deal.

This includes information on the provisional number of ECO measures installed by installation month, and covers installations up to August 2015.

## Installer FAQs

Our ECO FAQs help improve understanding of the scheme among the supply chain. [Read more.](#)

## About ECO

ECO is a government scheme to reduce carbon dioxide emissions from Britain's domestic housing and support people living in fuel poverty by funding energy efficiency improvements.

It places legal obligations on larger energy suppliers to deliver energy efficiency measures to domestic premises in Great Britain. The scheme began in 2013, and the overall obligation period for the second phase of ECO (ECO2) runs from 1 April 2015 to 31 March 2017.

Ofgem E-Serve is the administrator of ECO while DECC is responsible for the policy.
