Dear Deirdre,

Statutory Consultation on a proposal to modify amending the disapplication conditions of the Independent Gas Transporter (IGT) and Independent Distribution Network Operator (IDNO) licences (published 11 December 2015)

The Association of Independent Gas Transporters (AIGT) and Competitive Networks Association (CNA) welcome the opportunity to respond to the latest consultation on amending the disapplication conditions of the IGT and IDNO licences. The AIGT and CNA are the representative associations for Independent Gas Transporters¹ and Independent Distribution Network Operators² respectively.

The AIGT and CNA worked closely with Ofgem to develop and review the revised conditions and submitted responses to the earlier consultations on the changes to Special Condition 1 and Standard Condition BA2 during 2015 and are pleased to note that a number of the changes that were proposed have been incorporated into the final proposed drafting.

The Associations have no further comments to make to those originally provided in our earlier consultation responses.

Yours sincerely,

John Barrett, Secretary, Association of Independent Gas Transporters (AIGT)
& Competitive Networks Association (CNA)
