Dear Clothilde,

Proposal to issue the Business Plan Commitment Reporting Guidance

SSE welcomes the opportunity to review Ofgem's proposed Business Plan commitment reporting guidance under SLC 50. The proposed guidance aligns with our expectation of what is required to be reported and the specified content seems reasonable. On this latter point, we recognise that the changes to the Regulatory Instructions and Guidance to collect this content are being consulted upon separately and, whilst we have responded to this consultation, we have not passed comment on these specific changes.

Should you wish to discuss this or any other further developments in terms of the Guidance, please do not hesitate to get in touch.

Yours sincerely,
(by email only)

Lauren Milligan
