Dear Clothilde

Proposal to issue the Business Plan Commitment Reporting Guidance

On behalf of Electricity North West Limited, thank you for the opportunity to respond to this consultation. We have limited the scope of this response to the formal drafting associated with the Standard Licence Condition 50 – Business Plan Commitment Reporting (SLC50) requirements. We have included comments on the proposed RIG table SI1 in the separate “Notice proposing modifications to the Regulatory Instructions and Guidance (RIGs) for RIIO-ED1” response.

We suggest that there are a couple of modifications to the guidance to improve its presentation or clarify the requirements:

- Under 4.3 and 5.1, the guidance refers to RIGs sheet SI11. This should read SI1.
- The note referring the unrestricted domestic tariff should state “not including the £5 rebate scheme for 2015/16”
- The final bullet of section 4.3 (“additional qualitative information regarding innovation) should be indented.
- The section numbering misses out 4.4 and 4.5.

If you have any questions, please do not hesitate to contact me.

Yours sincerely

Jen Carter
Regulation Manager
