

Energy Company Obligation

Monthly Update

24 March 2016

Issue 9

Dear Stakeholder

Welcome to the Energy Company Obligation (ECO) newsletter.

In this month's ECO newsletter we direct you to the presentation slides delivered at this week's ECO Stakeholder Delivery Group.

We also point to DECC's latest Household Energy Efficiency National Statistics, and our own updated ECO2 public reports.

We value your feedback, so feel free to [contact the ECO Team](#) with suggestions for how we can improve our newsletter.

Latest news and updates

[Ofgem's ECO2 public reports](#)

Our [monthly ECO public reports](#) show energy companies' progress towards their ECO2 targets.

The information is displayed in charts and data tables.

The data shows the number and type of measures notified by the end of January 2016 and approved by the end of February 2016.

[ECO Stakeholder Delivery Group](#)

The ECO Stakeholder Delivery Group took place on Monday 21st March.

The agenda included ECO monitoring, overwritten U-values, the Every Home Matters Review and ECO brokerage.

A representative from a local council spoke about local energy efficiency schemes and DECC outlined ongoing work on energy efficiency in the private rented sector.

[DECC's Home Energy Efficiency Statistics](#)

DECC have published their latest [statistical report](#) covering ECO installations.

This outlines the provisional number of ECO measures installed by month, and covers installations up to January 2016.

This shows a 14% monthly increase in ECO installations.

Upcoming events

Come and meet us

Ofgem E-Serve will be attending a number of events in the next couple of months. Look out for our stand at the Homebuilding and Renovating Show in Birmingham and the All Energy event in Glasgow.

If you are going to either event and have any ECO queries, or want to find out more about the other schemes we administer, please come and speak to us.

14-17
Apr
Homebuilding and Renovating Show
NEC Arena, Birmingham

About ECO

ECO is a government scheme to reduce carbon dioxide emissions from Britain's domestic housing and support people living in fuel poverty by funding energy efficiency improvements.

It places legal obligations on larger energy suppliers to deliver energy efficiency measures to domestic premises in Great Britain. The scheme began in 2013, and the overall obligation period for the second phase of ECO (ECO2) runs from 1 April 2015 to 31 March 2017.

Ofgem E-Serve is the administrator of ECO while DECC is responsible for the policy.
