To: National Grid Gas Plc (NTS)

Gas Act 1986 Section 23(1)(a)

Modification of special condition 5G of the gas transporter licence held by National Grid Gas plc

- National Grid Gas Plc (National Transmission System)(NGG(NTS)) is the holder of a gas transporter licence ('the Licence') granted or treated as granted under section 7 of the Gas Act 1986 ('the Act').
- 2. Under section 23(2) of the Act the Gas and Electricity Markets Authority ('the Authority')¹ gave notice on 18 March 2016 ('the Notice') that we propose to modify Part F of Special Condition 5G of the Licence. We stated that any representations to the modification proposal must be made on or before 15 April 2016.
- 3. A copy of the Notice was sent to the Secretary of State in accordance with section 23(4)(b) of the Act, and we have not received a direction that the change should not be made.
- 4. We received one response to the Notice, which we carefully considered. Our response is set out in the accompanying letter.
- 5. We are making this licence change at the request of NGG(NTS) who plans to add three new NTS Exit Points to the Licence.
- 6. The effect of the modification will be to add "Palm Paper", "Kinneil CHP" and "St Fergus Segal" as new exit points to Table 8 in Part F of Special Condition 5G. A modified Table 8 is contained in Schedule 1 of this modification.
- 7. Where an application for permission to appeal our decision is made to the Competition and Markets Authority (CMA) under section 23B of the Act, Rule 5.7 of the CMA's Energy Licence Modification Appeals Rules² requires that the appellant must send to any relevant licence holders who are not parties to the appeal a non-confidential notice setting out the matters required in Rule 5.2. Schedule 2 of this document provides a list of the relevant licence holders in relation to this modification. Section 23(10) of the Act sets out the meaning of 'relevant licence holder'.

Under the powers set out in section section 23(1)(a) of the Act, we hereby modify special condition 5G of the gas transporter licence of NGG(NTS) in the manner specified in attached Schedule 1. This decision will take effect from 15 August 2016.

This document is notice of the reasons for the decision to modify the gas transporter licence held by NGG(NTS) as required by section 38A of the Act.

¹ The terms "the Authority", "we" and "us" are used interchangeably in this document.

² The rules were published by the Competition Commission in September 2012. On 1 April 2014, the Competition Commission was abolished and its functions transferred to the CMA.

The Official Seal of the Gas and Electricity Markets Authority here affixed is authenticated by the signature of

Frances Warburton, Partner, Energy Systems Division Duly authorised on behalf of the Gas and Electricity Markets Authority

17 June 2016

Schedule 1 - Licence drafting

Special Condition 5G. Determination of Incremental Obligated Exit Capacity volumes and the appropriate revenue drivers to apply

Part F: Non-incremental Obligated Exit Capacity

- 5G.30 Non-incremental Obligated Exit Capacity will be the sum of Licence Baseline Exit Capacity as set out in Table 8 below adjusted for Exit Capacity Substitution and Legacy TO Exit Capacity from the date that the revenue entitlement in accordance with Special Condition 3A (Restriction of NTS System Operation Revenue) has ceased.
- 5G.31 Licence Baseline Exit Capacity is set out in Table 8.
