4. To facilitate compliance with paragraph 3 of this condition, the accounting records and other records kept by the licensee with respect to the Specified Information must be so arranged as to ensure that such information can be separately identified and reasonably attributed as between the licensee’s business and the business of any affiliate or related undertaking of the licensee.
5. The licensee shall:

- (a) maintain all systems of control and other governance arrangements that ensure the information collected and reported to the Authority is in all material respects accurate and complete and is fairly presented and that all such systems of control and other governance arrangements are kept under regular review by the directors of the licensee with a view to ensuring that they remain effective for this purpose; and
  - (b) provide all such assistance as may be reasonably required to permit the Authority to review such systems from time to time.

9. No Specified Information may exceed what could be requested from the licensee by the Authority under paragraph 1 of standard condition 4 (Provision of information to the Authority).

Part C: Development and modification of the Cap and Floor RIGs
