

FIT Deployment caps that have been reached in tariff period 1 (February 8 – March 31 2016) as at 00:00 on 09 February 2016

The table below lists the deployment caps that have been reached so far in the current tariff period and records the date and time of the last installations to gain entry under those caps. Installations that are dated and timed afterwards will be queued for entry into the next available deployment cap.

Since this data was extracted (at 00:00:00 on 09 February 2016) we have only received a limited number of ROO-FIT applications, none of which appear to have caused a Cap to be reached. We will publish a further update on 19 February 2016.
