

Deployment Caps
Feed-in Tariffs (FIT)

FIT Deployment caps that have been reached in tariff period 02 (01 July – 30 September 2016) as at 00:00 on 12 July 2016

Please be aware that the following table does not consist of real-time information. These figures are updated on a weekly basis, or when a cap is reached. The information for each tariff period is verified once the tariff period has ended, which means these figures may change when the report for the entire tariff period is published.

The following table lists the deployment caps that have been reached so far in the current tariff period and records the date and time of the last installations to gain entry under those caps. It also includes the capacity deployed per techonolgy and the number of installations under each cap. Installations that are dated and timed afterwards will be queued for entry into the next available deployment cap.
