

FIT Deployment caps that have been reached in tariff period 02 (01 April – 30 June 2016) as at 00:00 on 24 May 2016

Please be aware the following tables do not consist of real-time information. They are updated on a weekly basis, or when a cap is reached. The information for each tariff period is verified once the tariff period has ended, which means these figures may change when the report for the entire tariff period is published.

The table below lists the deployment caps that have been reached so far in the current tariff period and records the date and time of the last installations to gain entry under those caps. Installations that are dated and timed afterwards will be queued for entry into the next available deployment cap.

Deployment band	Cap limit (kW)	Cap reached?	Date and time of final installation to qualify for the cap	Total Capacity (kW)
PV < 10kW	76,969	No	N/A	14,330
PV 10-50kW	25,722	No	N/A	5,104
PV >50kW	14,500	No	N/A	9,948
