

RESPONSE RECEIVED BY EMAIL on 14 July 2017
Northern Powergrid

Mick

This response represents the views of Northern Powergrid (Northeast) Limited and Northern Powergrid (Yorkshire) plc.

We do not have any material policy or instruction changes to report but do have a few minor presentational comments so please take this e-mail as our response to the notice.

Please find below the presentational comments on the proposal issued on 27 June 2017.

- Page 5 - Contents - Section 3. Valuation – underneath this heading is a sentence that seems to have been bookmarked and should be removed
- Page 6 – Contents and page 64 – Section 18. Scheme datasets – remove the heading Purpose
- Page 6 – Contents and page 65 – Section 19 – this table and the instructions are deleted should the section be retained ?
- Page 19 – in the heading are the words “Worked Examples: Asset and liability reconciliation” need deleting
- Page 28 – footnote 6 is against the wrong heading should be against heading “Employer contributions towards deficit”
- Page 34 - in the left hand box under 7.2. Establish deficit there are some square brackets that should be removed
- Page 70 – Table 21.1 the first row “Proposed payment history, PPH” suggests a cell reference of row 79 on table 1.5. This row is called “Total Proposed EDE” and is blacked out ?
- Tables 1.5 and 1.6 these do not comply with the colour coding on the cover pack and have a number of rows completely blacked out making the numbers impossible to read, some of these blacked rows have instructions that suggest entries should be input, for example, row 28, 69, 73 and 78.

Thank you for the opportunity to comment and happy to clarify any of the above points.

Regards

Keith Mawson

Head of Regulatory Finance & Systems
