¹ For the purposes of this table, "capacity deployed" includes the capacity of MCS installations and ROOFIT applications for preliminary and full accreditation that have been counted towards the relevant cap in the tariff period.

Chart 1: Deployment Caps Utilisation (by technology)

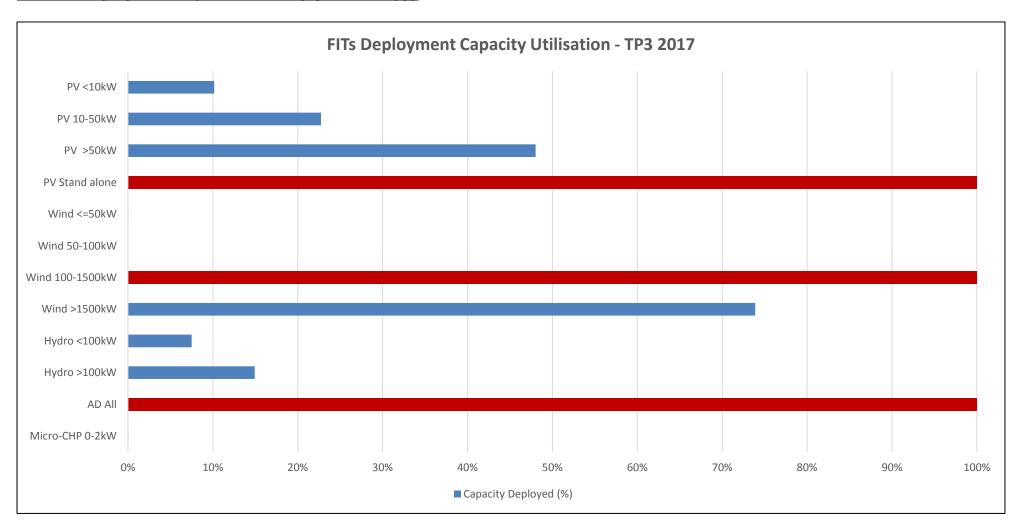

Table 2: Deployment caps for current and future tariff periods

This table shows the capacity limits for each deployment cap as provided for in the Feed-in Tariffs Order 2012 (as amended). In caps that were not reached during that period, the capacity limits in the current tariff period have been adjusted to account for unused capacity in the previous tariff period (in **bold** below). The capacity limits in future tariff periods are subject to change.
