Proposal for a Capacity Market Rules Change

Reference number (to be completed by *Ofgem*): **CP321**

Name of Organisation(s) / individual(s):	Date Submitted:	
EMR Delivery Body	17 October 2017	
ENTR Denvery Body	17 October 2017	
Type of Change:	If applicable, whether you are aware of an	
	alternative proposal already submitted which	
5 7 4 1 4		
	this proposal relates to:	
☐ Addition	n/a	
□ Audiuon		
☐ Revoke		
☐ Substitution		
T	. 7 . 7	
Proposal summary (short summary, suitable for publ	ished description on our website)	
Dula 7 5 1(a) requires the Delivery Dady to date	the DETA value (P) on the Conseits Market	
Rule 7.5.1(o) requires the Delivery Body to update the BETA value (β) on the Capacity Market		
register 5 days after a stress event. At 5 days after a stress event, we may not be in a position to know		
which CMU has a BETA value and which doesn't (
than 5 days to respond). It is our understanding that	it the Settlement Body does not need to know this	
data until 5 days after the end of the relevant month	h. Therefore the Delivery Body recommends	
better alignment of timescales across Delivery Part	ners in the Rules.	
NOTE: the BETA value (β) is either 1, where a Re	levent Relencing Service is provided in the	
relevant Settlement Period or 0 if not providing a R	relevant Settlement Period or 0 if not providing a Relevant Balancing Service.	
Total variety of the first providing a receivant business got view		
The second second of the secon	celevant Daianeing Service.
