Annex 1

Explanation of the Authority's reasons for direction under Paragraphs 2D.32 (Severe Weather Events) and 2D.35 (Other Events) of the Distribution Licence in place for 2015/16

1. Introduction

- 1 This document sets out the reasons for issuing a direction under Paragraphs 2D.32 (Severe Weather Events) and 2D.35 (Other Events) of Part F of Special Condition CRC 2D of the licence (the 'Licence') granted or treated as granted to Western Power Distribution (South Wales) Plc under section 6(1)(c) of the Electricity Act 1989.
- 2 This direction is intended to adjust Western Power Distribution (South Wales) Plc's (SWALES) 2015/16 performance for the number and duration of interruptions.
- 3 The structure of the rest of this document is as follows:
Section 2 sets out the claims submitted by SWALES for consideration under the quality of service incentive scheme exceptional events mechanism;
Section 3 sets out the Examiner's recommendation(s) and the Authority's decision(s); and
Section 4 sets out the Authority's revisions to performance for the exceptional events.

2. Exceptional Event claims submitted by SWALES for 2015/16

- 4 SWALES notified the Authority during 2015/16 that it considered the event(s) in Table 1 to have been exceptional (for the purposes of Paragraphs 2D.32 (Severe Weather Events) and 2D.35 (Other Events) of Part F of special condition CRC 2D) and to have affected its performance.

Table 1: 2015/16 exceptional event claims

Date and event details	Claimed Adjustments	
	CI	CML
Severe Weather Event One: 7 February 2016 (paragraph 2D.32 of Part F)	1.50	1.39
Other Event One: 7 November 2015 (paragraph 2D.35 of Part F)	4.71	-
Total	6.21	1.39

3. Examiner's recommendations and Authority's decisions

- Authority's verification - 7 February 2016 (Severe Weather Event One)
- 5 The Authority's exceptional event database calculation finds that this event was exceptional, with 57 incidents at higher voltages being recorded in a 24 hour period, against a threshold of 41.
- 6 The Authority therefore directs that SWALES's 2015/16 performance should be adjusted to exclude the audited impact of the incidents, as set out in Table 2 below.
- Examiner's report – 7 November 2015 (Other Event One)
- 7 The Examiner's report finds that this event was exceptional, having breached the other event customer interruptions threshold of 2.26, with 78311 customers interrupted.
- 8 The Authority found that SWALES had failed to take all preventative and mitigating actions as set out in Appendix 4 of special condition CRC 2D. The Examiner therefore reduced the Examiner's recommended performance adjustment by 25 per cent. SWALES's 2015/16 performance should be adjusted to exclude the revised impact of the customer interruptions in excess of the thresholds of 2.26 CIs, as set out in Table 2 below.

Table 2: Audited impact of 2015/16 exceptional event claims

Date and event details	Authority's Adjustments	
	CI	CML
Severe Weather Event One: 7 February 2016 (paragraph 2D.32 of Part F)	1.50	1.37
Other Event One: 7 November 2015 (paragraph 2D.35 of Part F)	3.54	-
Total	5.03	1.37

4. Authority's revisions to performance

- 9 The Authority has verified the impact of the severe weather events and other event on performance and considered other relevant information and circumstances (such as SWALES's statement of facts) and is satisfied that Severe Weather Event One and Other Event One were exceptional. Under paragraphs 2D.32 and 2D.35 of Part F of special condition CRC 2D the Authority may, therefore, in accordance with the provisions of those paragraphs, make adjustments to SWALES's data in respect of these events.

- 10 The impact of the changes relates to overall company performance and the adjustment to price control revenue under the incentive scheme, rather than protection of individual customers. The Authority therefore considers it reasonable and pragmatic to apply the adjustments to the overall annual performance data rather than at a more detailed level.
- 11 The adjustments to the annual performance data are shown in Table 3 below.
