			V					
3. Tell us about how the DNO engaged with you a) What did the DNO do? b) How did the DNO do it c) Did the DNO have a robust engagement strategy?	<p>Most UKPN individuals we came across have been very helpful in discussing problems and solutions.</p> <p>Occasionally, UKPN people tend not to reply to emails after telephone conversation where a response to email was agreed, in the ICE team. I personally found it difficult to contact and get information out of</p>							

The DNO's work plan

4. Objectives: Have you seen the DNOs work plans? a) Does it take into consideration your needs? If so, how? b) If it doesn't please explain why	Had a brief read and yes it took into consideration of our needs—including to be more flexible, reduce lead time and provide more information before application.

Section 2: Looking Forward plans 2018/19

We want your views on what the DNO aims to achieve in the coming year

10. Are you satisfied that the DNO has a comprehensive and robust strategy for engaging with connection stakeholders and facilitating joint discussions where appropriate?	Yes.
11. Do you agree that the DNO has a comprehensive work plan of activities (with associated delivery dates) that will meet the requirements of its connection stakeholders? If not, has the licensee provided reasonable and well-justified reasons? What other activities should the DNOs do?	<p>Looks good, but it would be even better that UKPN to have a place online where we can find the up-to-date A&D design fee.</p> <p>This comment is for all DNOs, DNOs should not be charging full offer acceptance fee when we are not aware of the SoW outcome yet. We should have the right to know the full list of risks (which are desktop assessable, such as SoW) associated with our applications, SoW result could kill our project, it is not fair that we put down considerable (£30k-£50k) amount of deposit before we even know if the project can work or not.</p> <p>We are happy to pay the £2,750 SoW application fee and the A&D fee incurred by the DNO when producing an offer for us, then pay the full acceptance fee once we are aware of the SoW outcome, so that it is fair for both parties.</p>
12. Do you consider that the DNO has set relevant outputs that it will deliver during the regulatory year (eg key performance indicators, targets, etc.)?	Yes.
13. Would you agree that the DNO proposed strategy, activities and outputs have been informed and endorsed by a broad and inclusive range of connection stakeholders? If they have not been endorsed, has the licensee provided robust evidence that it has pursued this?	Yes.
