Tell us about how the DNO engaged with you <b>a)</b> What did the DNO do? <b>b)</b> How did the DNO do it <b>c)</b> Did the DNO have a robust engagement strategy?	<p>Run quarterly meetings with ICPs to discuss a range of current issues, updates us on recent developments with their ICE plan.</p> <p>They have also engaged with us on our ambition to be a self-approved designer. They ran a workshop to explain the process and give us feedback on our current performance and have arranged follow up meetings to keep us updated.</p> <p>They have also responded really well on a number of specific project issues</p> <p>They have an open and robust engagement strategy</p>

4. <b>Objectives:</b> Have you seen the DNOs work plans? <b>a)</b> Does it take into consideration your needs? If so, how? <b>b)</b> If it doesn't please explain why	I have but I can't recall the detail
---	--------------------------------------

5. <b>Actions:</b> Do you think the DNO has delivered its work plan? a) How has the DNO done this? b) If you do not think the DNO has delivered its work plan, please explain why	Not sure			
6. <b>Outputs:</b> Were the outputs (KPIs, targets etc) in the DNO's work plan appropriate? Please explain why	Not really, metrics are not a great indicator to me. I believe what I can touch and feel.			
<b>Your feedback on performance</b>				
7. Do you think the DNO's strategy, activities and outputs have taken into account ongoing feedback from broad and inclusive range of connections stakeholders?	Yes			
8. How satisfied are you with the DNO's overall performance?	very unsatisfied	not satisfied	satisfied	very satisfied
9. General feedback	We are generally very happy with UKPN and all they are doing to facilitate competition in connections and assisting us to increase our range of ICP services. We occasionally experience operational issues with individuals in their organisation but I would not say these are out of the ordinary in terms of numbers of, or project impact. We carry out fairly straightforward HV and LV metered demand projects where the processes are well understood and quite straightforward. We have a great relationship with their CiC team at all levels and consider them to be part of our supply chain and an effective one at that.

12. Do you consider that the DNO has set relevant outputs that it will deliver during the regulatory year (eg key performance indicators, targets, etc.)?	Not sure
13. Would you agree that the DNO proposed strategy, activities and outputs have been informed and endorsed by a broad and inclusive range of connection stakeholders? If they have not been endorsed, has the licensee provided robust evidence that it has pursued this?	Not sure
